Product family datasheet

LEDriving F1

Powerful LED fog light

LED fog lights
Thanks to its perfect light beam it provides optimal illumination of the road ahead

6,000 K
Substantially higher color temperature compared to conventional fog lights for better visibility

Clear the fog

The LEDriving F1 LED fog lights offer a premium quality LED technology and optimum replacement for most modern fog lamps. Thanks to its practical Plug & Play technology, you can easily install the fog lights in just a few steps. The integrated controls ensure superb user convenience. With a color temperature of 6,000 Kelvin, LEDriving F1 can even provide optimum illumination for the sides of the road, which are difficult to see. Thus, you have a better visibility even under adverse weather conditions and fog. Further characteristics of these high quality fog lights are the long lifespan of up to 5,000 hours and a lens resistant to gravel impact. OSRAM offers a 3 year guarantee for these LED fog lights. Note: LEDriving F1 are certified according to ECE, SAE and CCC regulations (ECE R19 F3 approval).
