

# HTI Single End

### Areas of application

- Concert Lighting
- Club & Disco
- Stage & Theatre
- Studio, TV, & Film
- Architecture & Architainment

#### Product features and benefits

- High luminance

- High luminous efficacy and efficiency

# Product family datasheet

### Technical data

<sup>1)</sup> Horizontal arc

<sup>2)</sup> SE = Single ended/XS = eXtreme Seal (maximum permissible foil temperature 450 °C)

3) Special GY22 base. The ignition voltage may be applied only to the thin pin/XS = eXtreme Seal (maximum permissible foil temperature 450 °C)/Important: The contact pins of the base are short-circuited; the electrode farthest from the base is connected via cable

<sup>4)</sup> Fan

<sup>5)</sup> Measured at Molybdenium foil / Pinch Seal region (eXtreme Seal Technology)

<sup>6)</sup> Bulb including current bar

 $^{7)}$  Current strap underneath

 $^{\rm 8)}$  Special GY22 base. The ignition voltage may be applied only to the thin pin

<sup>9)</sup> Important: The contact pins of the base are short-circuited; the electrode farthest from the base is connected via cable

### Product family datasheet

#### Safety advice

Because of their high luminance, UV radiation and high internal pressure during operation, HTI lamps may only be operated in enclosed lamp casings specially constructed for the purpose. Appropriate filters must ensure that UV radiation is reduced to an acceptable level. Mercury is released if the lamp breaks. Special safety precautions must be taken. Information on safety and handling is available on request or can be found in the leaflet included with the lamp or in the operating instructions.

#### Application advice

For more detailed application information and graphics please see product datasheet.
