

NIGHT BREAKER LASER

Brightest OSRAM halogen light

Up to 130% more light

For better visibility and significantly shorter reaction times compared to standard halogen lamps

Up to 40 m longer light beam

For improved visibility and less eye strain compared to standard halogen lamps

Up to 20% whiter light

For fatigue-free and comfortable driving compared to standard halogen lamps

The most powerful halogen light from OSRAM

Discover NIGHT BREAKER LASER - the brightest halogen automotive light from OSRAM! Thanks to an innovative laser ablation technology these headlight lamps shine up to 130% brighter than standard halogen lamps. The combination of highly engineered filament and pure xenon gas filling ensure an extra light output. Thus, the lamps provide an up to 40 meter longer light beam and up to 20% whiter light compared to standard halogen lamps. More light and improved visibility can help drivers identify and react to traffic hazards more quickly. And last but not least - NIGHT BREAKER LASER convinces with its unique design with laser-etched product name and silver cap. The ideal lamp for drivers who know the difference that powerful automotive lighting makes!
