

SUPRATEC HTC/HTT

Areas of application

- Curing large areas of plastic
- Drying paint and varnishes
- Glue curing
- Exposure of diazo film material and print masters
- Artificial material aging
- Fluorescence excitation (with black glass filters)
- Curing large areas of plastic

Product features and benefits

- SUPRATEC UV high pressure lamps for technical applications

Product family datasheet

Technical data

	General Product Information			Photometric Data
Product description	Global order reference	Nominal wattage	Nominal voltage	Radiated power 280315 nm (UVB)
HTC 2000-349	HTC 2000-349	2000 W	400 V	60 W

					• •
HTC 2000-349	HTC 2000-349	2000 W	400 V		60 W
			Physical Attributes & Dimensions	Operatin Condition	•
Product description	Radiated power 315400 nm (UVA)	Light center length (LCL)	Lamp base	Burning	position
HTC 2000-349	490 W	104.0 mm	KY10s	s180	
	Lifetime Data	Environmental & Regulatory Information Information according Art. 33 of EU Regulation (EC) 1907/2006 (REACh)			
Product description	Nominal lifetime	Primary artic identifier	le Declaration r SCIP databas		Candidate list substance 1
HTC 2000-349	800 hr	4008321739	704 f84df1f5-9c5 aa38-df85b3		Lead

Product description	CAS No. of substance	Safe use instruction
HTC 2000-349	7439-92-1	The identification of the Candidate List substance is sufficient to allow safe use of the article.

Product family datasheet

Attention

SUPRATEC lamps emit UV radiation of high intensity which can cause sunburn and conjunctivitis. Skin or eyes must not be exposed to direct or reflected unfiltered radiation! Operate in closed fixtures only.

Application advice

For more detailed application information and graphics please see product datasheet.
